EDUCATION

B.S. in Computer Science - University of Texas at Dallas. December 2024.

TECHNICAL SKILLS

C++	Java:
SQL	Spring Boot
React	JavaScript
Python	Spanish
REST APIs	AWS
AI Agents	Containerization
Kubernetes Orchestration	
Music Production	Git
Unity 3D Game Development	

EXPERIENCE

Infosys, December 2025-Present

- Completed enterprise-level training in full-stack development and system design
- Built and deployed applications using **Spring Boot and React**
- Gained hands-on experience with **cloud computing, Docker, and Kubernetes**

- Developed multiple projects demonstrating scalable backend and API design

Revature, June 2025 – December 2025

- Completed intensive training in **full-stack development**
- Built RESTful APIs using **Spring Boot** and integrated frontend with **React**
- Collaborated in team-based development environments using Agile practices

PROJECTS

Portfolio Website, Feb 2026

Built full-stack application using **Spring Boot and React**. Deployed on **Render** with integrated backend APIs. Showcases technical projects, articles, and research work

Sonic Ai, March 2026

Developed an AI-powered conversational agent in **Python**. Integrates music APIs to analyze **sonic features, metadata, and stylistic patterns**

Introduction to Ai and Agents, March 2026

This is a research book I began writing during the development process of Sonic Ai. The book covers fundamentals and principles of Ai agent design theory for the perspective of beginners.
